Expand your team's knowledge with top expert Dr. Gregor Hočevar

INTRODUCTION TO CERAMIC IMPLANTS: LECTURE + HANDS-ON WORKSHOP

Are you ready to upgrade your clinic's practice?

Ceramic implants are becoming an increasingly important part of modern implantology – due to their biocompatibility, immunological neutrality, aesthetic appeal, and long-term success. We offer you the opportunity to host Dr. Gregor Hočevar, DDS, M.Sc., founder of Center Hočevar and a recognized expert in ceramic implantology, in your clinic, where he will present the many advantages of ceramic implants and the potential to set your clinic ahead of the competition.

Join modern implantology trends!

Offer your patients more – start by educating your team.

WHAT DOES THE EVENT INCLUDE?

- ✓ Professional lecture: basics and clinical introduction to ceramic implants
- ✓ Hands-on workshop: practical introduction with demonstration and guided exercises
- ✓ Individual approach: for teams of 10 to 20 people, tailored to your needs
- ✓ Certificate: participation certificate for all attendees

THE EVENT IS SUITABLE FOR:

- Clinics looking to expand implantology services and gain a competitive advantage
- Those dealing with sensitive patients (allergies, aesthetics)
- Dentists seeking a holistic, natural tooth replacement solution

WHY ORGANIZE IT AT YOUR LOCATION?

- Personalized approach for your team
- No additional travel or costs – we come to you with all the necessary equipment
- Direct exchange of experiences and live Q&A
- Opportunity for long-term professional collaboration

WE ADAPT TO YOU:

- Location: your clinic (Croatia)
- Date: to be agreed
- Number of participants: 5 to 20 people

The event is educational and suitable for both beginners and experienced dentists. Price to be agreed upon.

Dr. Gregor Hočevar

Dr. Gregor Hočevar is a respected expert in ceramic implantology, renowned for his knowledge and innovative approach to dental care.

With many years of experience and numerous successful cases, he brings invaluable knowledge and practical insights to this workshop. His work primarily focuses on ceramic implants. He completed his M.Sc. on this topic under Prof. Dr. Covani with the thesis "Immediate Implantation of Ceramic Implants in the Aesthetic Zone".

He also developed his own surgical technique for guiding the regeneration of soft and hard tissues, thereby improving the quality and appearance of soft tissues after immediate implant placement in the visible sector.

He regularly publishes professional articles and shares his knowledge with students, at professional congresses, and with the general public.

His commitment to excellence and passion for teaching make him the ideal mentor for dentists looking to advance their practice.

Certified specialists for:

SDS SWISS DENTAL SOLUTIONS 

SWISS DENTAL SOLUTIONS

Swiss Dental Solutions is a pioneer in the field of biological dental implantology, based on the use of highly biocompatible zirconia implants. Their solution offers a holistic patient approach, promotes tissue regeneration, reduces inflammation, and ensures top aesthetic and functional results without metals in the body.

With over two decades of innovation, research, and clinical experience, SDS combines science, nature, and Swiss precision. Their passion for education and sustainable treatment ranks them among the leading partners for dentists seeking long-term health for their patients.
