

MAHA SYMPOSIUM

Integrative medicine & dentistry

📅 29th and 30th of May 2026

📍 Ljubljana Castle, Slovenia, Europe

WHERE MEDICINE, DENTISTRY, AND INNOVATION MEET.

The MAHA Symposium 2026 brings together leading experts from the fields of **integrative medicine, biological dentistry, and advanced medical therapies.**

Held at the historic Ljubljana Castle, this two-day international event will explore innovative approaches that connect oral health, systemic health, and modern biological therapies.

Through lectures, case studies, and interdisciplinary discussions, the symposium aims to highlight how modern medicine is increasingly moving toward holistic, biocompatible, and patient-centered treatment approaches.

GAIN VALUABLE INSIGHTS INTO:

- ✓ **integrative and functional medicine**
- ✓ **biological dentistry**
- ✓ **biocompatible materials in medical treatments**
- ✓ **advanced regenerative approaches**
- ✓ **the connection between oral health and systemic diseases**

MAHA SYMPOSIUM

Integrative medicine & dentistry

📅 29th and 30th of May 2026

📍 Ljubljana Castle, Slovenia, Europe

INTERNATIONAL EXPERTS

The symposium will host renowned international speakers, each bringing unique clinical experience and scientific insight.

Dr. Sebastjan Perko,
PhD.

DDr. Johann Lechner
PhD-UCN

Dr. Ana
Moreira

DDr. Matjaž L. Regovec

Dr. Ralf Octtmeier

Dr. Mariano Bueno

Dr. med. Kurt E.
Müller

Dr. rer. nat. Heiko
Hofmann

Dr. Gregor Hočvar
MSc.

Dr. Marcus Stanton

Ajil Kunhumbidukka Veettil,
BAMS, PGDY, RAV (General
Medicine) MSc (Yoga science)

Dominik Golenhofen,
univ.dipl.ing.grad.
dipl.hol.ener.med.

Zenel Batagelj

Petra Brzović

Prof. Dr. Nataša Kežar

Dr. Joel Portugal

Dr. med.
Christoph J.
Bäumer

Coen van der
Kroon

Dr. med. dent.
John Augspurger,
NMD, IBDM

Allyson Ann
Orme
BA, MA, HHP

MAHA SYMPOSIUM

Integrative medicine & dentistry

📅 29th and 30th of May 2026

📍 Ljubljana Castle, Slovenia, Europe

CENTER HOČEVAR

FEATURED SPEAKER

Dr. Gregor Hočevar, M.Sc.

One of the speakers at this year's symposium is **Dr. Gregor Hočevar, a pioneer of biological dentistry and ceramic implantology in Slovenia.**

Dr. Hočevar focuses on treatment approaches that respect the biological balance of the body, using modern techniques and biocompatible materials to support long-term health.

His work highlights the growing importance of understanding how oral conditions can influence systemic health, and how dentistry can contribute to overall wellbeing.

LECTURE FOCUS

In his lecture, **Dr. Hočevar** will present the role of **zirconia dental implants** within **biological dentistry**, explaining how modern implantology is evolving toward more biocompatible and holistic solutions.

KEY TOPICS

- ✔ the principles of biological dentistry
- ✔ advantages of metal-free ceramic implants
- ✔ the relationship between oral focal points and systemic health
- ✔ clinical approaches that support long-term biological balance
